~6 months + ongoing

How long have your previous efforts at cross-sector collaboration lasted?

- A. We've never done this. This is our first time thinking about a cross-sector approach.
- B. A couple of months. Despite good intentions, things fizzled out relatively quickly.
- C. A year or so. We started off strong and worked together for a good amount of time.
- D. More than a year. We are collaborating machines!

HOW DO YOU KNOWIF COLLECTIVE IMPACTIS RIGHT FOR YOU?

Do you need to work together with others to solve this problem?

NAH. We can solve it ourselves (or with one or two others).

YES! The only way to solve this is to bring many actors together.

What is the problem we are facing?

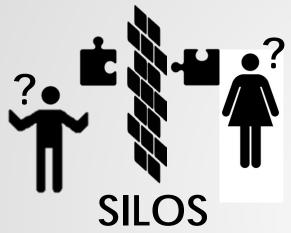

Does it require actors from across sectors to work together to solve it?

Is collective impact the best tool for our collaboration?

Questions about if collective impact is the <u>right tool</u>?

If you meet these 4 preconditions you are ready for CI

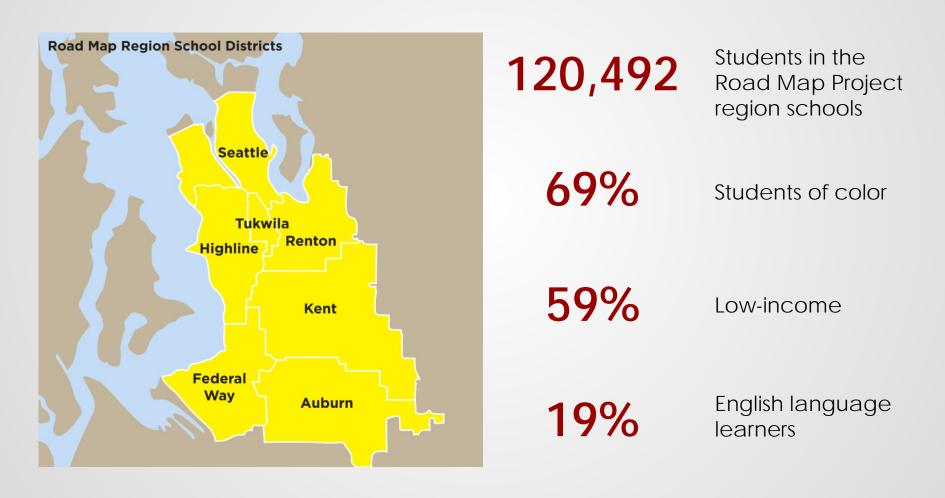

South Seattle and South King County is a highly diverse region

All preconditions were in place

CHAMPION

The Road Map Project

The Road Map Project's goal is to double the number of students in South Seattle and South King County who are on track to graduate from college or earn a career credential by 2020. We are committed to nothing less than closing the unacceptable opportunity and achievement gaps for low-income students and children of color, and increasing achievement for all students from cradle to college and career.

CoreAlign was searching for breakthroughs in collaboration

Can increased collaboration, or collective impact, be a strategy within the movement (not the strategy of the movement) to help move us forward in the following ways?

- Break through the log jam by achieving wins on specific issues
- Shift from individual organizations' activities to measurable collective outcomes across organizations
- Establish and accelerate a culture of coordinating and working together
- Engage new partners government, policy makers, business/corporate, and nonprofits in other movements

We assessed readiness across four broad categories

People Have Positive and Healthy Sexual Lives

(e.g., preventive care; sexual education; protection against sexual assault; protection from discrimination against sexual orientation and gender identity)

B

People Have the Ability to Decide Whether and When to Have Children

(e.g., appropriate contraception; abortion; infertility support; choice of adoption)

C

People Have Healthy Pregnancies and Childbirth

(e.g., positive birth experiences; prevention of pregnancy complications or pregnancy related deaths)

People Have Support for Families to Live with Dignity

(e.g., supportive work environments; safe and healthy communities; support for queer parenting; supportive welfare, criminal justice, and immigration systems)

We identified three opportunity spaces for collaboration

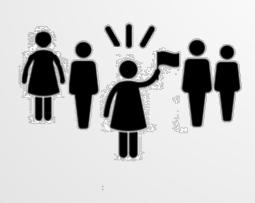

Description	Category	Potential Collaborators
Long-term, structured collaboration on abortion and contraception policies at the state and federal levels	В	Organizations dedicated to RR/RJ/RH
Local coordination on policies and practice (e.g., changes in service delivery) to expand abortion and contraceptive access	В	Organizations dedicated to RR/RJ/RH + affiliated organizations (e.g., medical providers, academia)
Policy and/or systems change on social and economic issues that affect reproductive outcomes	D	Organizations dedicated to RR/RJ/RH + organizations from other movements (e.g., labor, immigration)

These are opportunities for greater collaboration, and over time, collective impact.

Not all preconditions were present

Handout

Are our prerequisites in place?

urgency, trust, champion, resources

Questions about <u>readiness</u> for collective impact?

Collective impact is right for us if:

1. WE NEED TO COLLABORATE WITH MULTIPLE ACTORS ACROSS SECTORS

- 2. WE ARE TRYING TO FIX OR CHANGE A BROKEN SYSTEM
- WE HAVE ALL FOUR READINESS PRECONDITIONS IN PLACE (urgency, trust, a champion, and resources)

Thank you!
